## Gender Action Plan Workshop

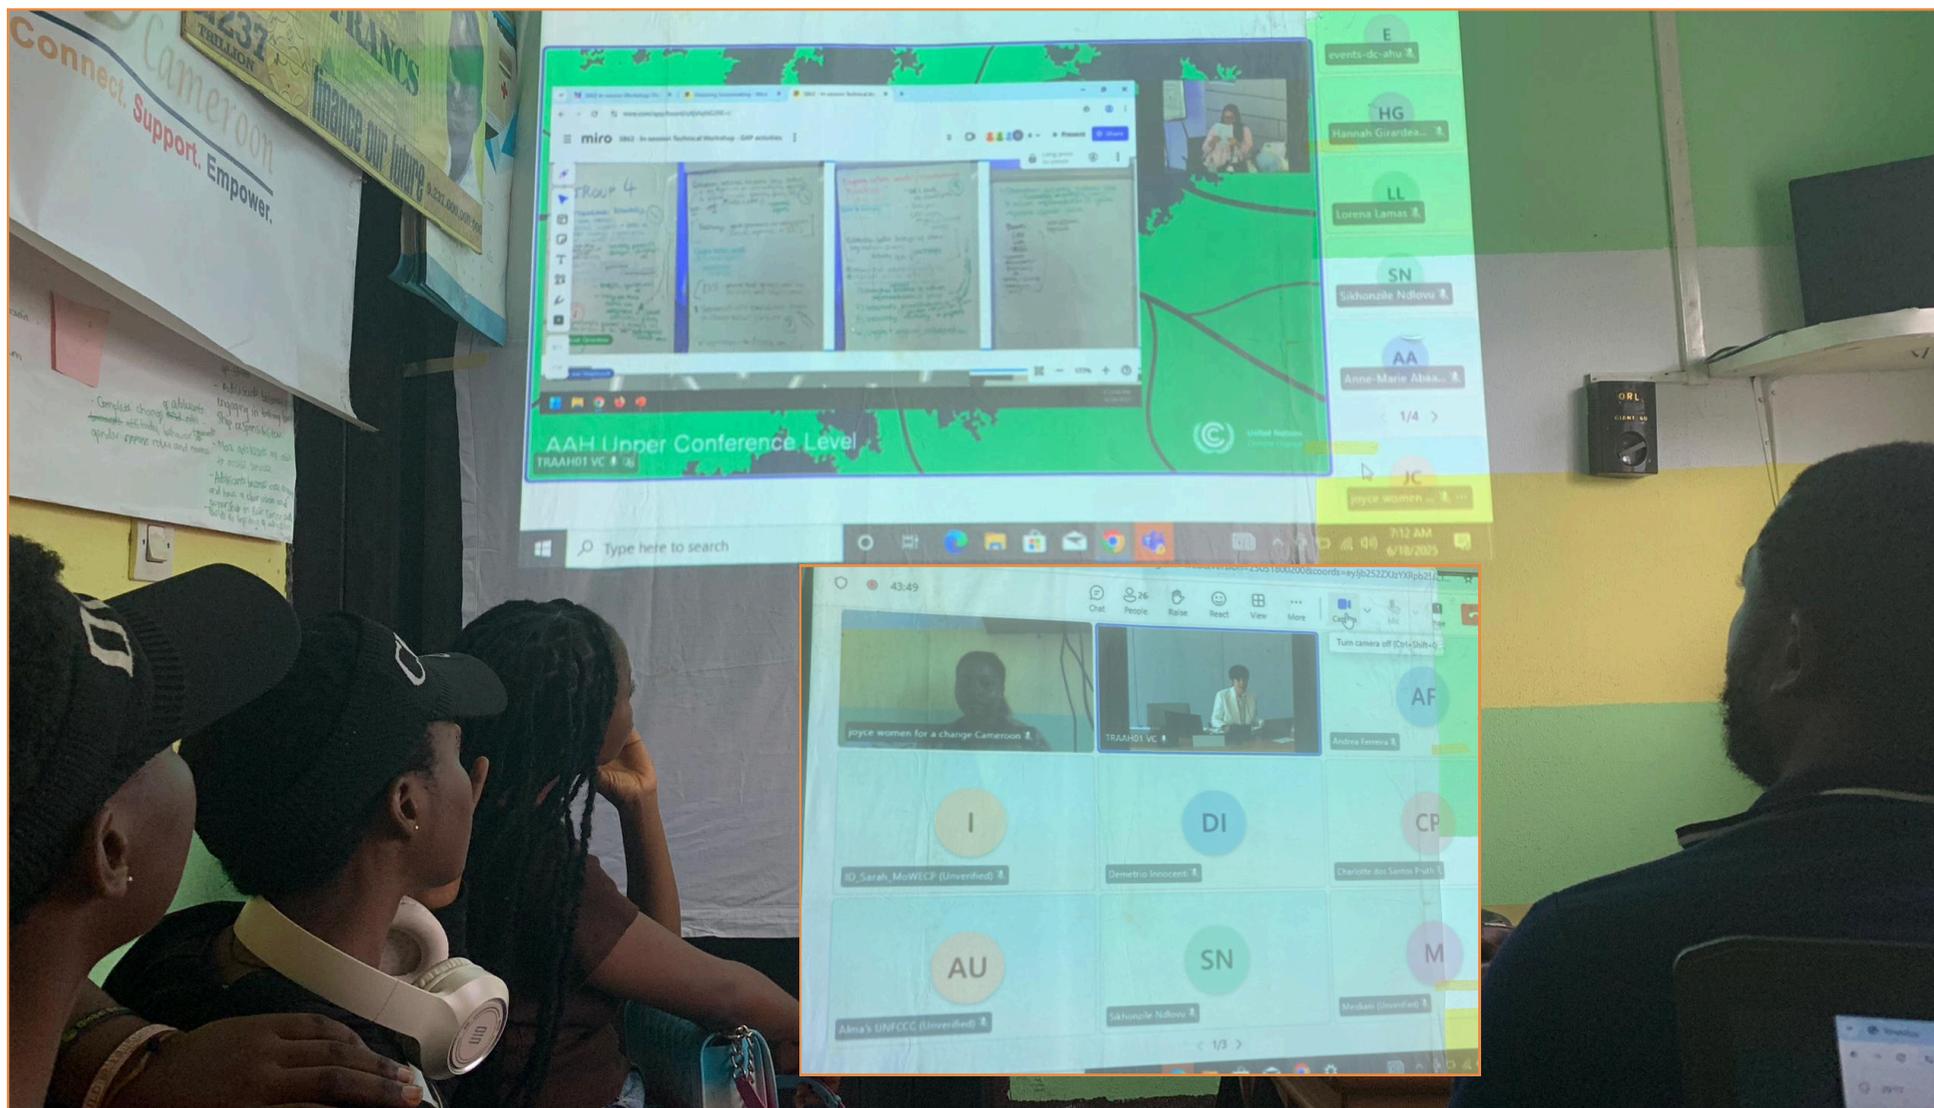

A powerful in-session technical workshop focused on shaping **gender-responsive climate systems** for 2025–2034.

“No more policies on paper — it's time for **real action** for women and girls.”

## Watch Party in Cameroon

**As discussions unfolded in Bonn, youth and women gathered in Cameroon to follow the report-back session virtually through a watch party that we organised.**

**Distance must never be a barrier to participation.**

## Just Transition Outdoor Event

**The day ended on a high note with music, movement, and meaningful exchanges, a reminder that joy and justice go hand-in-hand in this work.**
